Washington, DC 20460

Dear Mr. Reily:

Please note that I am writing to you today to express my support  
for the HiTec 3000 fuel additive.

It really seems as there is no choice to make here. One can see  
that it not only helps to clean up our environment but it also lessens  
our addiction to foreign oil. It would be a deep disappointment and  
a failure of our bureaucracy to see the EPA not fully endorse this  
product and promote some type of legislation mandating its use.

Please call me at (215)965-6010 if you have any questions or comments  
in regards to the above.

Sincerely,

A handwritten signature in cursive script that reads "Christopher V. Barebo".
